AUTO CHANGE SYSTEM

Q-TORCH AUTO CHANGE SYSTEM

Q-TORCH

AUTO CHANGE SYSTEM

Change torch heads automatically, quickly, and without manual interaction, and take your manufacturing productivity to a whole new level.

The innovative QT Auto Change System saves valuable machine time, prevents application errors, and ensures a fast and reliable torch head changeover process. The QR code for tool identification ensures that the correct technology is always prepared for each cutting task. The number of docking stations is unlimited and can be flexibly adapted to your production processes.

The result: increased efficiency, shorter set-up times and significantly less handling effort in metalworking.

Prioritise Automation:

- ✓ Right technology for every cutting job
- ✓ Reduce downtime
- ✓ Increase machine utilisation
- ✓ Supports unmanned production
- ✓ Suitable for bevel applications
- ✓ Compatible with 2D and 3D guiding systems
- ✓ Easy to retrofit

Q-Torch Auto Change System for Q and iQ-Series:

- ✓ **Exchange unit QT Changer**
  Holds and releases torch heads
- ✓ **Torch head QT 4520**
  Powerful for precise cutting results
- ✓ **Docking station QT Dock**
  Secure Storage
